In order to deliver this service to you, we ask that you select a cost basis accounting method for your new account. If you do not elect a method, our default method of Average Cost will be used.

Please choose one of the following available methods:

Average Cost — the purchase price of all covered shares in the account are averaged
Default if no election is made.

First In, First Out — depletes shares beginning with the earliest acquisition date

Last In, First Out — depletes shares beginning with the most recent acquisition date

High Cost — depletes shares beginning with the most expensive shares

Low Cost — depletes shares beginning with the least expensive shares

Loss/Gain Utilization — depletes shares in the following order: short term losses, long term losses, break even shares, long-term gains, short-term gains

Specific Lot Identification — depletes shares according to the lots chosen by the shareholder

◆ If Specific Lot Identification

You will need to select a secondary method to be used for systematic redemptions and in cases where the lots you designate are insufficient or unavailable.

Please select a secondary cost basis accounting method:

First In, First Out
Default if no election is made.

Last In, First Out

High Cost

Low Cost

Loss/Gain Utilization
