In order to deliver this service to you, we ask that you select a cost basis accounting method for your new account. If you do not elect a method, our default method of Average Cost will be used.

Please choose one of the following available methods:

Default if no election is made.
- First In, First Out** — depletes shares beginning with the earliest acquisition date
- Last In, First Out** — depletes shares beginning with the most recent acquisition date
- High Cost** — depletes shares beginning with the most expensive shares
- Low Cost** — depletes shares beginning with the least expensive shares
- Loss/Gain Utilization** — depletes shares in the following order: short term losses, long term losses, break even shares, long term gains, short term gains
- Specific Lot Identification** — depletes shares according to the lots chosen by the shareholder

◆ **If Specific Lot Identification**

You will need to select a secondary method to be used for systematic redemptions and in cases where the lots you designate are insufficient or unavailable.

Please select a secondary cost basis accounting method:

- First In, First Out**
Default if no election is made.
- Last In, First Out**
- High Cost**
- Low Cost**
- Loss/Gain Utilization**

Please consult your tax advisor to determine which cost basis accounting method best suits your individual tax situation.

If we cannot determine your election method you will be defaulted to Average Cost.

Only choose a secondary cost basis method if you choose Specific Lot Identification as your primary method.
